The joy of hearing is celebrated in Moments like these—the everyday reminders of how sound connects us to the things we love. With exceptional sound quality, ReSound hearing instruments and accessories help bring these Moments to Life.

Hearing aid control from an iPhone® or Android™ Smartphone

ReSound Unite™ Phone Clip+ is a small, clip-on lapel device that enables the user to control hearing aids in a manner that is elegant, intuitive and best of all – absolutely discreet. Adjust the volume of the hearing instruments with a few swipes on the iPhone or Android smartphone screen.

This flexible device also:

- Transforms hearing aids into hands-free telephone headsets
- Blocks out surrounding noise when taking a call in a loud environment
- Streams music or speech from a Bluetooth® audio player directly into the hearing aids

Learn more about ReSound Unite Phone Clip+ at www.gnresound.com/unite
800-248-4327

Join the movement! As a hearing healthcare professional, you create special Moments every day for your patients. Share your Moments at gnresound.com/Moments.

Visit our web channel on [AudiologyOnline](http://AudiologyOnline.com) for available courses.

On this Month's Cover...

2013 Noise Induced Hearing Loss Seminar Series

Join us Wednesdays in July for these exciting live webinars, presented from 12 to 1 pm Eastern.

Noise induced hearing loss (NIHL) remains prevalent despite advances in regulation, standards and technology. Research shows that dangerous noise can come from any number of occupational and recreational sources including music, MP3 players, construction, firearm use and even city living. Audiologists need to continue to be at the forefront of this important issue by raising awareness, preventing and treating hearing loss from noise. Join Guest Editor Dr. Brian Fligor and other leading experts as we explore the latest research in NIHL and its considerations for audiology clinical practice. All courses are eligible for CEUs - see page 2 for details.

AudiologyOnline

Online Training and Education

Earn CEUs at your convenience!

1. Visit AudiologyOnline.com and click on Continuing Education.
2. Choose from hundreds of CEU courses.
3. Register and view the course materials.

To earn your CEU credit, you must be a CEU Total Access member. Upon completion of the course, you must pass a short, online exam within 7 days of a live event and within 30 days of registration for a recorded or text course. As a CEU Total Access member, we retain your transcript online for easy access. Get started today!

Technical Requirements

AudiologyOnline courses require a high-speed internet connection, a web browser, Flash Player 10.1, and audio speakers or a headset for optimal participation. Flash Player 10.1 is a free download from www.adobe.com

Additional Information

For questions regarding AudiologyOnline courses, please contact AudiologyOnline customer service at 800-753-2160.

Most courses are available on [AudiologyOnline](http://AudiologyOnline.com) for credits/hours by AAA, ASHA, CAA, CASLPA, & IHHIS.

* Note: Visit AudiologyOnline.com for official CEU status.

Premium hearing technology shaped for life

Oticon | Alta

Oticon Alta: Unlock the Power of Personalization

Author: Kelly A. Austin, Au.D.

Many factors affect how your patients respond to amplified sound: how their ears work, how they process information, personal sound preferences, individual experiences, etc. Proper attention to these individual needs and preferences results in good fittings and high levels of overall patient satisfaction. This course introduces you to Oticon's newest premium product: Alta. New technologies, such as Speech Guard E, Spatial Sound Premium, YouMatic, Free Focus Directionality, and the Inium feedback shield will be reviewed along with Alta's new approach to personalizing hearing instrument fittings.

This course (ID #22239) is approved for 1 hour of CEU credit.

Access this course and more at [www.oticonusa.com](#) in the Resources section of the Hearing Professionals tab.

Audiology Online is approved by the Continuing Education Board of the American Speech-Language-Hearing Association (ASHA) to provide continuing education activities in speech-language pathology and audiology. See course information for number of ASHA CEUs, instructional level and content area. ASHA CE Provider approval does not imply endorsement of course content, specific products or clinical procedures.

AudiologyOnline is an approved provider for the **AG Bell Academy for Listening and Spoken Language**.

Audiology Online is approved by the **American Academy of Audiology** to offer AAA CEUs. Refer to each activity for specific information about the CEUs offered. Academy approval of a continuing education activity does not imply endorsement of course content, specific products, or clinical procedures.

The Association of Hearing Instrument Practitioners of Ontario (AHIP) represents and guide its members in their practice which include, the testing and selecting, fitting and dispensing hearing instruments and associated devices in the best interest of the hard of hearing of Ontario. Audiology Online is an approved provider of approved educational activities for AHIP Members. One hour of coursework equals 1 Continuing Education Unit (CEU).

AudiologyOnline courses are approved for Continuing Education Points by the **Australian College of Audiology**.

AudiologyOnline is a CPD provider for the **British Academy of Audiology**.

The **Canadian Academy of Audiology (CAA)** supports and assists its members in the attainment of continuing education towards an individual professional development plan as required by their Provincial Regulatory Colleges and Provincial Associations. Audiology Online is an approved provider of educational activities for CAA members. Each hour of activity may be counted as one Continuous Learning Activity Credit (or equivalent) as allowed by the applicable regulatory college or association.

Certified members of the **Canadian Association of Speech-Language Pathologists and Audiologists (CASLPA)** can accumulate continuing education equivalents (CEEs) for their participation with Audiology Online. One hour of coursework equals 1 CEE. All CASLPA members are encouraged to participate in on-going education.

This program is approved by the **International Hearing Society** and its educational committee, the **International Institute for Hearing Instruments Studies**.

Kansas Department of Health and Environment: Approved for 2.0 continuing education clock hours for Kansas licensed Audiologists by the Kansas Department of Health and Environment. Long-Term Sponsorship number LTS-S0035.

AudiologyOnline is an approved online CE Provider for the **State Committee of Examiners in the Fitting and Dispensing of Hearing Instruments in the State of Texas**.
